DJI Mavic Filters & Accessories

DJI MAVIC FILTER 6-PACK

FW-MAV-6PACK

The DJI Mavic Pro Filter 6-Pack from Freewell is designed for offering complete daytime photography solutions. The ND filters are made from advanced multilayered optical glass and are used to reduce the amount of light hitting the sensor. This helps to remove the abnormal 'Jello' effect normally seen due to the camera's rolling shutter. The CP (circular polarized) lens is ideal for removing unnecessary glare. This pack contains 6 different lens filters to satisfy all your daytime photography requirements. The pack contains 6 essential and advanced lens filters, including ND8, ND16, ND32, CPL, ND-8/PL, ND-16/PL along with a completely free lens cleaner and protective case. These filters help you to get crystal clear images in all types of daylight conditions.

DJI MAVIC FILTER 4-PACK

FW-MAV-4PACK

The DJI Mavic filter Standard Day 4-pack from Freewell is designed for extremely convenient drone photography. This is a pack of 4 essential filters (ND4, ND8, ND16 and CP filter) with an added lens cleaner and protective case as well. These filters are designed to offer crystal clear and sharp images in sunny bright to low cloudy daytime lighting conditions.

The efficient ND filters are created to cut light falling on the sensor by 2X f-Stops while the CPL is ideal for reducing the unwanted glare from naturally reflective surfaces, such as water bodies or glass windows.

DJI Mavic Filters & Accessories

DJI MAVIC HYBRID FILTER 3-PACK

FW-MAV-HYBRID

The DJI Mavic Hybrid Filter 3-pack from Freewell is ideally designed to be used for efficient drone video shooting. This pack contains three (3) essential ND filters (ND4-PL, ND8-PL and ND16-PL) mainly along with a convenient lens cleaner and secure protective case. This pack is best -suited for drone photography in cloudy to bright daytime lighting conditions.

Each Hybrid filter from Freewell is designed with ingenuity. These filters offers ideal cutting of light falling on camera sensor progressively. The hybrid ND filters are designed for dual purpose of being lightweight and advanced drone camera filters at the same time.

DJI MAVIC FILTER 3-PACK

FW-MAV-GRAD

The DJI Mavic Grad Filter 3-Pack from Freewell is designed to provide efficient grad solutions for drone photography. This 3-filter Grad pack contains the Gray grad filter, Blue grad filter and Orange grad filters along with a lens cleaner and protective case. These filters offer a convenient way to add special color effects to photos and videos without needing additional editing systems. The pack contains 3 color filters that are tinted on the upper half with the color fading gradually as you move lower. The lowest half of the lens is clear glass. This pack satisfies all your color effects needs while shooting with DJI Mavic Pro

DJI Mavic Filters & Accessories

DJI MAVIC PRO UV FILTER

FW-MAV-UV

Freewell Multicoated UV Filter (1 Gram) – The sun's emission of UV rays is significantly bad for your camera lens. Freewell UV filter is designed to absorb almost all range of UV rays to give clearer and sharper pictures with less haze. It also functions as protective layer that shields the lens from dirt, dust and scratches.

DJI MAVIC PRO ND32/PL HYBRID FILTER

FW-MAV-ND32/PL

Freewell Multicoated ND32/PL (1 Gram) – The ND32/PL Hybrid Filter from Freewell is designed to effectively reduce light falling on sensor by 5 f-stops. This is ideal to be used in slightly bright sunny conditions for getting high-end footage without packing extra filters on to the camera lens it also help reduce the glares from metallic surface.

DJI Mavic Filters & Accessories

DJI MAVIC ND64/PL HYBRID FILTER

FW-MAV-ND64/PL

Freewell Multicoated ND64/PL (1 Gram) – The ND64/PL Hybrid Filter from Freewell is designed to effectively reduce light falling on sensor by 6 f-stops. This is ideal to be used in brightest sunny conditions for getting high-end footage without packing extra filters on to the camera lens it also help reduce the glares from metallic surface.

DJI MAVIC ND1000 FILTER

FW-MAV-ND1000

The DJI Mavic ND1000 Filter from Freewell is designed for perfect images while shooting in bright daytime. The ND1000 filter is ideal for getting clear and perfect images when shooting outdoors in bright conditions for long exposure photography.

DJI Mavic Filters & Accessories

DJI MAVIC PRO PROPELLER GUARD

FW-MAV-PG

The DJI Mavic Pro Propeller Guard from Freewell is designed a perfect must have accessories for beginner or when flying indoor. This is a must-have accessory to keep your drone propellers safe from damage. The propeller guards are constructed from light-weight and strong material for ideal protection to the intricate propellers.

DJI MAVIC PRO LANDING GEAR

FW-MAV-LG

The DJI Mavic Pro Landing Gear from Freewell is the best choice for protecting your drone from dusty and dirty landing surfaces. This is a compactly designed landing gear set which allows you to raise the height of your drone significantly for convenient landing and take-off from uneven and rugged outdoor surfaces.

DJI Mavic Filters & Accessories

DJI MAVIC PRO LENS SUNHOOD & GIMBAL PROTECTOR

FW-MAV-GLSH

The DJi Mavic Pro Lens Sunhood from Freewell is made to offer protection and efficiency to the camera lens when you are flying your drone . The sunhood is ideal for blocking stray light or flare from other light sources. It also offers additional protection to the lens and gimbal. The effective design is ideal for ensuring crystal clear images and better footage.

The DJi Mavic Gimbal protector from Freewell provides 2 in 1 solution so you do not need to have a small gimbal protector which comes along with your drone all the time it also helps you remind to remove you gimbal cover before flying drone which we often forget with small gimbal protector which comes with drone as well as this offer a nice protection to your drone camera when traveling.

DJI MAVIC LENS SUNHOOD

FW-MAV-LSH

The DJi Mavic Pro Lens Sunhood from Freewell is made to offer protection and efficiency to the camera lens. The sunhood is ideal for blocking stray light or flare from other light sources. It also offers additional protection to the lens and gimbal. The effective design is ideal for ensuring crystal clear images and better footage.

DJI Mavic Filters & Accessories

DJI MAVIC REMOTE PROTECTION

FW-MAV-RS

The DJI Mavic Remote Protection from Freewell is designed to provide complete protection to your remote. This remote accessory is made from durable and lightweight material to offer comfortable use of drone for a longer time. Easy to install and detach.

DJI MAVIC SUNSHADE

FW-MAV-MHL

The DJI Mavic Sunshade from Freewell is the best solution to combat glare on your phone screen when flying in bright daylight. The ideal design allows it to be used with DJI Mavic remote with phone size as iPhone 7+ easily and most efficiently. The sunshade provides sufficient cover to the screen so as to provide a clear and smooth view while flying the drone. It allow you to easy access your phone screen . The neck strap solution offer you to hold it comfortably without putting pressure on your hand all the time. Its 4 side wall make sure your phone screen is protected from all the side against outside ray's.

DJI Mavic Filters & Accessories

DJI MAVIC PRO TABLET MOUNT

FW-MAV-THU

DJI Mavic Pro Drone Remote is designed keeping portability in mind with that it has its limitations when you want to use bigger monitor device on your remote control or even with your small smart phone screen goes off often.

Freewell Best View Tablet Mount made with pilot grade CNC construction is the perfect solution giving you full access to your tablet/mobile screen with better view.

360Degree adjustable ball head offer you total free movement to move your screen on all the direction you need , Having several holes in bottom plate allows you easy access to connectors of remote control.

Tablet holder fits all kind of smart phone & tablets from iPhone 7+/iPad (Min 11.5cm – Max 19.5cm)

DJI MAVIC HARD CASE

FW-MAV-HRDCASE

The DJI Mavic Hard Case small version from Freewell is ideal for storing your mavic drone and accessories in a convenient way. This hard case is designed from highly durable material to make it best-suited for regular outdoor use. It has a compact size and design for carrying easily.

It conveniently fits your Mavic Drone , 2 extra Batteries , Remote Control , Power Supply , Charging Cable , Charging Hub

DJI Mavic Filters & Accessories

DJI MAVIC HARD CASE

FW-MAV-HRDCASE

The DJI Mavic Hard Case from Freewell is ideal for storing your mini drone and accessories in a convenient way. This hard case is designed from highly durable material to make it best-suited for regular outdoor use. It has a compact size and design for carrying easily.

It conveniently fits your Mavic Drone , 2 extra Batteries , Remote Control , Power Supply , Propeller , Cables , Freewell Filter Pack.

DJI MAVIC PRO PROFESSIONAL ACCESSORIES KIT

FW-MAV-PROKIT

The DJI Mavic Pro Professional Accessories Kit from Freewell is the best help for a drone enthusiast. This excellent and comprehensive kit contains multicoated ND filters that are ideal for giving a natural motion to the footage. The CPL filter is used to reduce the glare from natural reflective surfaces while the hybrid ND/PL filter allows for crystal clear images while the lens cleaner, protective hard case, propeller guard and landing gear complete the safety aspects of your drone.

DJI Spark Filters & Accessories

DJI SPARK FILTER 4-PACK - STANDARD DAY

FW-SPK-STD

The DJI Spark filter Standard Day 4-pack from Freewell is designed for extremely convenient drone photography. This is a pack of 4 essential filters (ND4, ND8, ND16 and CP filter) with an added protective case as well. These filters are designed to offer crystal clear and sharp images in sunny bright to low cloudy daytime lighting conditions.

The efficient ND filters are created to cut light falling on the sensor by 2X f-Stops while the PL is ideal for reducing the unwanted glare from naturally reflective surfaces, such as water bodies or glass windows.

DJI SPARK FILTER 4-PACK - BRIGHT DAY

FW-SPK-BRG

The DJI SPARK 4-Pack from Freewell is the best solution for filming in various bright sunny daytime light conditions. This pack has 4 advanced filters (ND16, ND32, ND64 and PL) with protective case as well. The double-side multicoated ND16, ND32 and ND64 filters helps to cut light hitting the sensor of the camera. This helps to get a naturally blurred motion while the camera is moving.

The PL (Polarized) lens filter from Freewell is best for preventing glare from natural reflective surfaces to enter the lens and give clear and sharp images outdoors in the daytime. These lens filters are designed to be lightest in weight and offer you effective solutions for filming in sunny to very bright sunny conditions.

DJI Spark Filters & Accessories

DJI SPARK FILTER 6-PACK - ALL DAY

FW-SPK-ALD

The DJI Spark Filter 6-Pack from Freewell is designed for offering complete daytime photography solutions. The ND filters are made from advanced multilayered optical glass and are used to reduce the amount of light hitting the sensor. This helps to remove the abnormal 'Jello' effect normally seen due to the camera's rolling shutter. The PL (polarized) lens is ideal for removing unnecessary glare. This pack contains 6 different lens filters to satisfy all your daytime photography requirements. The pack contains 6 essential and advanced lens filters, including ND8, ND16, ND32, PL, ND-8/PL, ND-16/PL along with protective case. These filters help you to get crystal clear images in all types of daylight conditions.

DJI SPARK UV FILTER

FW-SPK-UV

The Sun's emission of UV Rays is significantly bad for your camera lens, Freewell UV filter is designed to absorb almost all range of UV rays to give clearer & sharper pictures with less haze, It also function as protective layer that shields the lens from dirt, dust & scratches.

DJI Spark Filters & Accessories

DJI SPARK PROPELLER GUARD & LANDING GEAR

FW-SPK-PLG

The DJI Spark 2 in 1 Propeller Guard & Landing Gear from Freewell is designed as perfect must have accessories for landing spark on your hand or beginner or when flying indoor . This is a essential accessory to keep your drone propellers safe from damage as well as raising your spark drone height without any extender by 0.8cm & by adding the extender upto 3.8cm . The propeller guards are constructed from light-weight and strong material for ideal protection & weights only 40 Grams including leg extender which has no major change in your flight time.

DJI SPARK GIMBAL PROTECTOR

FW-SPK-GP

The DJI Spark Gimbal is probably the most delicate external part of your drone which may damage while keeping & removing your drone from you storage case or when you are on the move , So Freewell DJI Spark Gimbal protector is easy & quick fix to this issue by simply snapping the accessory to your DJI Spark & be worry free next time.

DJI Spark Filters & Accessories

DJI SPARK REMOTE SUNSHADE

FW-SPARK-MHL

Having no screen in spark remote control Freewell Remote sunshade is must have accessory , The DJI Spark Sunshade from Freewell is the best solution to combat glare on your phone screen when flying in bright daylight. The ideal design allows it to be used with DJI Spark remote with phone size as iPhone 7+ easily

and most efficiently. The sunshade provides sufficient cover to the screen so as to provide a clear and smooth view while flying the drone. It allow you to easy access your phone screen . The neck strap solution offer you to hold it comfortably without putting pressure on your hand all the time. Its 4 side wall make sure your phone screen is protected from all the side against outside ray's.

DJI SPARK TABLET MOUNT

FW-SPARK-THU

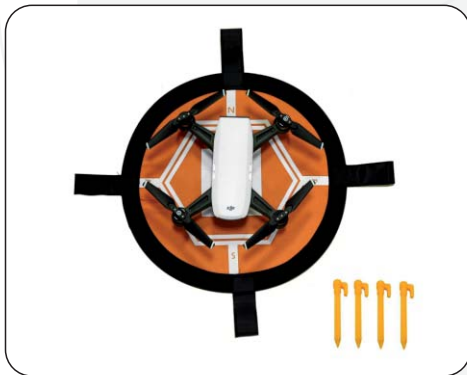

DJI Spark Remote control is designed keeping portability in mind with that it has its limitations when you want to use bigger monitor device on your remote control or even with your small smart phone screen often goes off , Freewell TABLET MOUNT is great solution to this problems by having a full access to your screen in different direction with the help of 360degree ball head.

DJI Spark Filters & Accessories

DJI SPARK LANDING PAD

FW-LP25CM

The Freewell DJI Spark Landing Pad for drones is designed to offer a highly visible and reliable landing mark for your drone. The durable material is waterproof and can be efficiently used in all kinds of weather and terrain. It is easily to deploy and easier to store in its storage bag.

DJI SPARK CARRY PACK ORGANIZER

FW-SPK-ORG

The DJI Spark Carry Case from Freewell is best-suited to store your DJI Spark drone and a whole range of essential accessories such as 3 extra battery , power adaptor , remote control, mini tab , cable that you require for outdoor drone filming . The carry case has been designed in a compact form for better portability even to stock in your backpacks. The composite materials used in making it allow it to be used effectively for securing your expensive drone and accessories while filming outdoors.

DJI Spark Filters & Accessories

DJI SPARK WATERPROOF CASE

FW-SPK-HCM

The DJI Spark Waterproof Carry Case from Freewell is designed for efficient storage and carrying of the DJI Spark drone, its remote control and all other essential accessories. This insulated carry case is a vital part of your outdoor drone flying experience and offers an easy way to carry your drone and accessories in all types of weather without the worry of damaging them the construction of case is fully waterproof.

DJI SPARK & GOGGLES WATERPROOF CARRY CASE

FW-SPK-HCG

The DJI spark and Goggles Carry Case from Freewell is made for easily storing and transporting your DJI Spark drone, DJI Goggles and other essential accessories that you need while filming outside without needing to carry multiple cases . This carry case is a must-have for frequent outdoor drone flyers as it provides better portability and offers excellent protection to your drone and all its accessories.

DJI Spark Filters & Accessories

DJI GOGGLES WATERPROOF CARRY CASE

FW-DVRG

The DJI Goggles Waterproof Carry Case from Freewell offers ideal protection and storing solutions, The compact and lightweight design makes it an efficient way to secure and carry your expensive gadgets when using in rugged terrain. Its waterproof capability make sure you are secure in all kind of weather conditions. Freewell high standard quality make sure you get the best out of your waterproof carry case.

DJI MAVIC & DJI SPARK WATERPROOF CARRY CASE

FW-MS-HC

The Freewell Dual Drone Carry Case is designed for efficiently carrying two drones, the smaller sized DJI Spark and the average sized DJI Mavic drone in 1 carry case at the same time giving it best protection possible protection . The tough outer exterior protects against damage from dust, dirt, water and physical damage. The soft material used in the interior is intricately designed to hold the two drones and their accessories and protect them against damage from physical shock. It carries 3 extra battery for each of your drone which means you are never running out of battery when in need along with all other most essential accessories such as remote control , adaptor , power bank & Freewell Filters.

DJI Phantom 4 Pro / Pro+/Adv Accessories

PHANTOM 4 PRO IR ND 5PACK

FW-P4PRO-IRND

The Phantom 4 Pro/Pro+ IR ND 5 Pack from Freewell is designed to give crystal-clear images and sharper footage in all types of daytime lighting conditions. The revolutionary IR filter first ever for Phantom Drone from Freewell now enables you to effectively cut the harmful IR (Infra Red) rays which cause red/brown in your video/photos from entering the lens and spoiling the footage. The special hybrid IR ND filters from Freewell serve the dual purpose of effectively blocking IR rays from hitting the sensor while the ND technology effectively removes the 'jello' effect normally seen with other filters. The light weight (just 4 Grams) of the filter also makes it ideal for drone flying as it has no negative effect on the gimbal.

PHANTOM 4 PRO 4-PACK ESSENTIAL

FW-P4PRO-ESS

The DJI Mavic Pro Professional Accessories Kit from Freewell is the best help for a drone enthusiast. This excellent and comprehensive kit contains multicoated ND filters that are ideal for giving a natural motion to the footage. The CPL filter is used to reduce the glare from natural reflective surfaces while the hybrid ND/PL filter allows for crystal clear images while the lens cleaner, protective hard case, propeller guard and landing gear complete the safety aspects of your drone.

DJI Phantom 4 Pro / Pro+/Adv Accessories

PHANTOM 4 PRO FILTER 4PACK

FW-P4PRO-4PACK

The Phantom 4 Pro 4 Pack from Freewell is the best solution for filming in various bright sunny daytime light conditions. This pack has 4 advanced filters (ND16, ND32, ND64 and CPL) with a lens cleaner and a protective case as well. The double-side multicoated ND16, ND32 and ND64 filters help to cut light hitting the sensor of the camera. This helps to get a naturally blurred motion while the camera is moving. The CP (Circular Polarized) lens filter from Freewell is best for preventing glare from natural reflective surfaces to enter the lens and give clear and sharp images outdoors in the daytime. These lens filters are designed to be lightest in weight and offer you effective solutions for filming in sunny to very bright sunny conditions.

PHANTOM 4 PRO HYBRID FILTER 3-PACK

FW-P4PRO-HYBRID

The Phantom 4 Pro Hybrid Filter 3 Pack from Freewell is designed to give professionals stunning footage without the need of adding additional bulky filters to the lens. The pack has 3 essential 2-in-1 filters (ND4/PL, ND8/PL and ND16/PL) along with a lens cleaner and protective case from Freewell. The ND/PL filters have been designed to reduce the amount of light hitting the sensor remarkably without the stress of additional lens filters on the camera. These are extremely light in weight and offer dual purpose to give perfect footage in hazy to normal daylight conditions.

DJI Phantom 4 Pro / Pro+/Adv Accessories

PHANTOM 4 PRO GRAD KIT

FW-P4PRO-GRAD

The Phantom 4 Pro Grad Kit from Freewell is the ideal solution for getting mesmerizing effects during normal daytime shooting. The Grey grad, Orange grad and Blue grad filters from Freewell provide extensive color and contrast balancing solutions for shooting in normal daytime conditions. The Phantom 4 Pro Grad Kit is a must-have for serious drone flyers.

PHANTOM 4 PRO ND32/PL HYBRID FILTER

FW-P4PRO-ND32/PL

Freewell Multicoated ND32/PL– The ND64/PL Hybrid Filter from Freewell is designed to effectively reduce light falling on sensor by 6 f-stops. This is ideal to be used in brightest sunny conditions for getting high-end footage without packing extra filters on to the camera lens it also help reduce the glares from metallic surface.

DJI Phantom 4 Pro / Pro+ / Adv Accessories

PHANTOM 4 PRO ND64/PL HYBRID FILTER

FW-P4PRO-ND64/PL

Freewell Multicoated ND64/PL– The ND64/PL Hybrid Filter from Freewell is designed to effectively reduce light falling on sensor by 6 f-stops. This is ideal to be used in brightest sunny conditions for getting high-end footage without packing extra filters on to the camera lens it also help reduce the glares from metallic surface.

PHANTOM 4 PRO LONG EXPOSURE ND1000 FILTER

FW-P4PRO-ND1000

The Phantom 4 Pro ND1000 filter from Freewell is designed to give high-quality images and footage while filming outdoors to capture stunning long exposures of things running with speed such as waterfall. The ND1000 filter helps to stabilize the footage and accentuate color and contrast outdoors. This advanced lens filter is coated on both sides to give a smooth and crystal-clear image even when shooting while the camera is facing the sun.

DJI Phantom 4 Pro / Pro+ / Adv Accessories

DJI PHANTOM 4 PRO GIMBAL GUARD & LENS COVER

FW-P4PRO-GGLC

The Phantom 4 Pro/Pro+ Gimbal Guard and Lens Cover from Freewell are designed to protect the camera lens and the gimbal as well. This is the best choice for protecting the expensive lens and the important gimbal during take-off and landing. These are easy-to-attach and remove accessories for your Phantom 4 Pro and Phantom 4 Pro Plus.

PHANTOM 4 PRO LENS COVER

FW-P4PRO-LC

Protecting lens – The Freewell Lens Cover for Phantom 4 Pro/Pro+ is designed to offer protection to the camera lens when the drone is being transported or when not in use. This is an ideal protection for the expensive camera lens from dust, dirt, scratches and other types of damage, it fits all Freewell Filters as well.

DJI Inspire 2 Zenmuse X4S Accessories

INSPIRE 2 X4S IR ND FILTER 5-PACK

FW-X4S-IRND

When using a standard neutral density (ND) filter you are actually filtering visible spectrum & not the infrared light, So you start to see a red/brown , So way to solve this is using IR ND. Freewell IR ND filter combines an ND filter with a comparable IR control filter to eliminate the spill of infrared light reaching the sensor while still maintaining the extra exposure benefits of a neutral density filter.

The Inspire 2 X4S IR ND Filter 5-Pack from Freewell is ideal for getting clear images by cutting infrared light from falling on the sensor. The ND filters are useful for creating a natural blur motion while filming a moving object or while in motion.

The innovative combination of an IR (infrared) and ND (neutral density) filter from Freewell helps you to get crystal-clear images in various daytime lighting conditions. These filters are developed with high-end optical glass which has multilayered coating on both sides for giving super-fine images.

INSPIRE 2 X4S FILTER 4-PACK

FW-X4S-4PACK

The Inspire 2 X4S Filter 4-Pack from Freewell is best-suited for all your bright daytime drone flying needs. This filter pack contains 3 (three) ND filters that are useful for removing the unnatural 'jello' effect seen often in footage while filming an object in motion or while the camera is moving. The ND filters are multicoated on both sides with multilayer coating to provide 4K video quality. The CPL (Circular Polarized Lens) filter offers prevention of glare from natural reflective surfaces.

DJI Inspire 2 Zenmuse X4S Accessories

INSPIRE 2 X4S HYBRID FILTER 3-PACK

FW-X4S-HYB

The Inspire 2 X4S Hybrid Filter 3Pack from Freewell is the best solution to get extra-sharp images and high-quality footage in standard daytime conditions. The hybrid ND/PL technology from Freewell combines the best of ND and PL filters into a single lens filter for added convenience. This technology offers you efficiency by preventing the use of multiple filters simultaneously and reducing the weight the drone has to carry, significantly.

DJI INSPIRE 2 X4S GRAD FILTER

FW-X4S-GRAD

The DJI Zenmuse X4S Grads 3-Pack Filters from Freewell offers ideal grad solutions for all your drone photography needs. The lens filters are designed to provide protection to the camera lens while flying. It mainly works to provide a convenient way to add a grayish tone to the image without the need for expensive image or video editing software. Add a naturally grey effect to images while filming with these efficient grad filters from Freewell.

DJI Inspire 2 Zenmuse X4S Accessories

INSPIRE 2 X4S ND1000 FILTER

FW-X4S-ND1000

The Inspire 2 X4S ND1000 Filter from Freewell is an ideal solution for long-exposure photography. This filter effectively cuts 10 f-stops light from entering the lens and helps to get super-fine images and HD quality videos, especially while filming a moving object. The filter gives a natural-looking blur motion to the footage.

DJI Zenmuse X5S/X5/X5R Accessories

DJI ZENMUSE X5/X5R/X5S IR ND 5-PACK

FW-X5-IRND

The DJI Zenmuse X5/X5R/X5S IR NR 5-Pack from Freewell is revolutionary solutions for the ultimate filming experience. The efficient combination of the IR (infrared) and ND (neutral density) filter technologies into a single lens filter by Freewell gives you premium HD quality footage. The filter blocks the harmful IR (infrared) light from entering the lens and spoiling the image at the same time providing effective ND filtering for clear and sharp images. The advanced Nd filters from Freewell have proven efficient in preventing the 'Jello' effect seen normally due to the camera's rolling shutter. This filter helps to provide a natural-looking blur motion to the footage without compromising on the quality of the images.

DJI ZENMUSE X5S/X5/X5R 3-PACK

FW-X5-P3

The DJI Zenmuse X5S/X5/X5R 3-Pack from Freewell is a multifunctional filter pack for the best drone experience. This pack contains 3 different types of filters that will help you to get the best of drone flying through efficient accessorizing. The innovative Variable ND filter from Freewell is most efficient for quickly changing the light setting on the camera lens for a narrower depth in field. The CP (Circular Polarized) Lens filter helps improve color and saturation of the image while the UV filter helps prevent the sun's ultraviolet rays from spoiling the picture.

DJI Zenmuse X5S/X5/X5R Accessories

DJI ZENMUSE X5S/X5/X5R 3-PACK GRADS

FW-X5-GRAD

The DJI Zenmuse X5S/X5/X5R 3-Pack Grads from Freewell is the most effective solution for all your graduated filter needs. These 3 Grad filters (Grey Grad, Orange Grad and Blue Grad) are ideal to add contrast and color effects to the images without the need for additional editing software. You can use these advanced graduated filters from Freewell to add amazing color and contrast to the image while filming outdoors.

DJI ZENMUSE X5S/X5/X5R ND GRADS 3-PACK

FW-X5-ND-GRAD

The DJI Zenmuse X5S/X5/X5RND Grads 3-Pack Filters from Freewell offers ideal grad solutions for all your drone photography needs. The multicoated lens filters are designed to provide protection to the camera lens while flying. It mainly works to provide a convenient way to add a grayish tone to the image without the need for expensive image or video editing software. Add a naturally grey effect to images while filming with these efficient grad filters from Freewell.

DJI Zenmuse X5S/X5/X5R Accessories

DJI ZENMUSE X5S/X5/X5R 2 IN 1 FILTER 1-PACK

FW-X5-NDPL

The DJI Zenmuse X5S/X5/X5R 2 in 1 Filter 1-Pack from Freewell is a single solution for two important photography needs. This filter allows you to not only control the color and saturation of the image but it also helps to decrease unwanted reflections from naturally reflective surfaces that are found outdoors.

DJI ZENMUSE X5S/X5/X5R ND1000 FILTER

FW-X5-ND1000

The DJI Zenmuse X5S/X5/X5R ND1000 filter from Freewell is made from robust material for durability while filming outdoors. This lightweight filter is designed to have no adverse effect on the gimbal while flying. The ND1000 filter from Freewell effectively reduces the amount of light by 10 f-stops hitting the sensor to give perfectly clear and sharp images while filming moving objects. The design of this filter is effective for removing the artificial 'Jello' effect which is normally seen in such conditions.

GoPro Hero5 Black Accessories

HERO5 BLACK ND FILTER 4-PACK

FW-H5B-ND

The GoPro Hero5 Black ND Filter 4-Pack from Freewell is designed to give you the best photography experience in normal daytime lighting conditions. The ND (Neutral Density) filters are designed to cut light from entering the lens in gradually higher magnitude, which helps to slow down the camera's shutter speed and remove the unnatural 'Jello' effect normally seen while filming objects in motion. Apart from this, the lens filter also helps to reduce the bright sunlight falling on the lens and spoiling the picture.

HERO 5 BLACK GRAD FILTER 3-PACK

FW-H5B-GRAD

The GoPro Hero5 Black Grad Filter 3-Pack from Freewell is designed for adding amazing effects to the picture without the need for post-editing software. This filter pack efficiently helps to provide color and contrast balance in various situations while filming outdoor to get naturally beautiful and attractive effects in the images directly.

GoPro Hero5 Black Accessories

HERO5 BLACK RED FILTER

FW-H5B-RED

The Hero 5 Black Red Filter from Freewell is designed for professional divers and snorkelers who are enthusiastic about underwater filming and photography. This filter helps to get crystal-clear pictures in blue water for depth 0-10Meter underwater and enhances the quality of your underwater photography experience.

HERO5 BLACK POLARIZER (PL) FILTER

FW-H5B-PL

The GoPro Hero5 Black Polarizer (PL) Filter from Freewell for preventing unwanted glare from spoiling the picture. This filter is designed to effectively reduce the brightness of natural reflective surfaces while filming outdoors. Apart from this, the filter provides overall control over color and contrast for best quality and crystal-clear images.

GoPro Hero5 Black Accessories

HERO 5 BLACK ND1000

FW-H5B-ND1000

The GoPro Karma Hero 5 Black ND1000 Filter from Freewell is designed to slow down the camera's shutter speed by 10 STOPS. This helps to take excellent pictures in long-exposure mode.

HERO5 BLACK HYBRID FILTER 3-PACK

FW-H5B-HYBRID

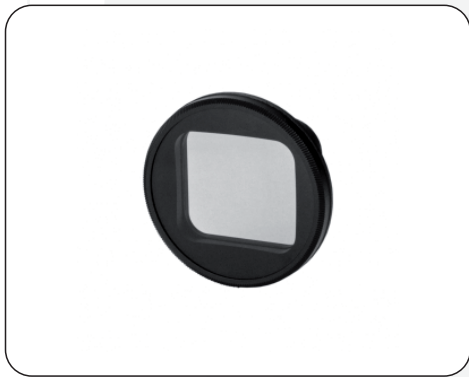

The HERO5 BLACK Hybrid Filter 3-Pack from Freewell is designed to give professionals stunning footage without the need of adding additional bulky filters to the lens. The pack has 3 essential 2-in-1 filters (ND4/PL, ND8/PL and ND16/PL) . The ND/PL filters have been designed to reduce the amount of light hitting the sensor remarkably without the stress of additional lens filters on the camera . These are extremely light in weight and offer dual purpose to give perfect footage in hazy to normal daylight conditions.

GoPro Hero5 Black Accessories

HERO5 BLACK CPL FILTER

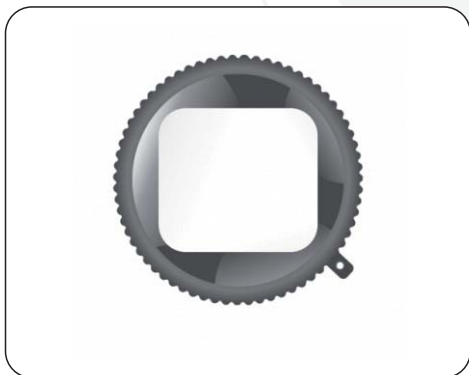

FW-H5B-CPL

The Hero5 Black CPL (Circular Polarized Lens) filter is designed for ideal daytime photography where you wish to have clear and sharp images. This is a useful filter for enhancing image quality in other ways as well by reducing glares from your images.

HERO5 BLACK MACRO FILTER

FW-H5B-MACRO

The Hero5 Black Macro filter is designed to allow you to take closeup images they are like magnifying glass for your GoPro Hero5 Camera . The Macro filter efficiently provides crystal-clear close-up shots.

GoPro Hero5 Black Accessories

PRO M3 ULTIMATE ACTION MONOPOD

FW-PRO M3

The Pro M3 Ultimate Action Monopod from Freewell is designed for use with popular action cameras, including GoPro Hero series. This is an efficient solution for taking pictures and filming using a single hand and on the move. The durable material used in its construction makes it a durable and reliable accessory while filming outdoor.

PRO M3 CARBON LITE MONOPOD

FW-PRO M3 CARBON

The Pro M3 Carbon Lite Monopod Selfie stick is designed for offering users with a truly versatile and convenient single-handed outdoor action camera filming and photographing experience. The monopod is developed using durable and lightweight materials to provide a comfortable and prolonged use of the monopod. The monopod fits most popular action cameras efficiently along with mobile smartphones.

GoPro Hero5 Black Accessories

360 SPIN CARBON FIBER MONOPOD

FW-S1

The 360 Spin Carbon Fiber Monopod from Freewell is designed to offer an ideal solution for one-handed filming using an action camera or mobile smartphone. The monopod stick is made from highly durable and lightweight carbon fiber material which makes it easy to use for a longer period of time without getting tired. This monopod offers you to film or photograph with the camera in Pan/Tilt mode with an innovative rotatable upper mount portion.

5200MAH ACTION CAMERA POWER HAND GRIP

FW-P1

The 5200MAH Action Camera Power Hand Grip from Freewell is designed to provide the best efficiency for capturing excellent footage outdoors. This hand grip provides an efficient handle to grip the camera and take excellent pictures. Apart from this, the power hand grip also supplies the camera with significant power to work for a longer time.

GoPro Hero5 Black Accessories

PISTOL TRIGGER ADAPTER

FW-PROTG-H4H3

The Pistol Grip Adapter from Freewell is an ideal one-handed photography solution. The pistol-grip design provides a comfortable grip and the lightweight and durable material used in its construction allows it to be used for a significantly longer period of time than conventional hand grips.

EASY SNORKELING MASK

FW-BREATH-V1

The Easy Snorkeling Mask from Freewell is the best choice for snorkeling user photography enthusiasts with less or no diving experience. This mask comes in various sizes and fits perfectly all around the face. The visor has an air inlet to avoid fogging while diving and keeps the vision clear the whole time you are snorkeling.

GoPro Hero5 Black Accessories

UNDERWATER LIGHT

FW-UWL

The Underwater Light by Freewell is designed for use in situations that require sufficient artificial lighting. The light is mainly designed to be used underwater but is also suited for use in conditions with low or no light. This portable light has an advanced and stronger battery for prolonged use. The design and construction of the light is meant to provide optimum safety from physical damage.
